

FROM THE DESK OF HELEN RUCKER

October 5, 2020

Dear ,

I pride myself on advocating for a well informed and engaged community. I am writing today regarding a very important election this November and my Support for Steve McShane for Monterey County Supervisor.

I've lived in Seaside more than fifty years and in that time I've seen leaders come and go. I am an excellent judge of character and when it comes to the right person at the right time for Seaside, I choose Steve McShane far above anyone else.

Steve McShane has the experience to do the job of County Supervisor that no other candidate has. His near fifteen years serving on a school board and City Council has prepared him well for standing up for our community. I have also seen Steve engage all constituents here in Seaside in a variety of capacities. I believe an elected leader needs to be visible and active. Steve is just that.

The current administration has made promises including water, housing and jobs and they just have not materialized. Steve has real results in these categories as a City Councilman. Our community needs a fresh start with their elected County Representative, and I urge you to join me in supporting Steve McShane.

Sincerely,

Helen Rucker
